

## **Hans Levenbach, PhD- Program Director**

Hans is founder and President of Delphus, Inc., which provides the PEER Planner demand forecasting and replenishment planning software solution for supply chain companies as well as hospital management organizations.

Hans began his career at AT&T Bell Laboratories as an applied statistician specializing in predictive analytics, forecaster training and developing decision support systems. After the breakup of the Bell System he founded Delphus, Inc. ([www.delphus.com](http://www.delphus.com)).

He has taught statistics and forecasting courses at Columbia University as well as MBA Statistics at New York University.

He and his wife Suzanne enjoy traveling and attend the annual International Symposium on Forecasting, where he gained much of the background for the most recent book.

He is an elected Fellow, Past President, Treasurer of the International Institute of Forecasters (IIF), and serves on the editorial board of FORESIGHT, the practitioner journal published by the IIF.

He is also a member of APICS, INFORMS, American Statistical Association and elected member of the International Statistics Institute.

In collaboration with the International Institute of Forecasters, Hans has been instrumental in designing and constructing "Certified Professional in Demand Forecasting" (CPDF™) curriculum for the professional certification of demand forecasters globally.

He is a co-author (with Jim Cleary) of "Forecasting: Practice and Process for Demand Management."
